Death Toll Drops for Fifth Month

SACRAMENTO — The California Highway Patrol announced that August was the fifth consecutive month in which fewer persons were killed in traffic accidents than during the same month a year ago.

The CHP said the death toll for August was 412 persons, compared with 447 for August, 1966. So far this year, the traffic death toll stands at 3011, as compared to 3090 in 1966.

The CHP continued to increase its enforcement activities, with the months total of 170,018 arrests up 18.7 percent from a year ago. Drunk driving arrests, totaling 2869 during August, were up 741 from August of last year.

Highway Patrol Moves Slow Drivers to Right

The California Highway Patrol is renewing its effort to move slower traffic to the right on multi-lane highways throughout California, according to Captain P. J. Ford of the South Los Angeles Area.

"Many motorists don't seem to realize there is a state law which requires them to maintain their speed at the speed of traffic in the lane in which they are driving, or drive to the right as far as practicable," Captain Ford said.

"This is the law behind the signs that read 'Slower Traffic Keep Right' and the patrol intends to enforce that law," he added.

"I would suggest that motorists drive as far to the right as they can and still

maintain the speed at which they wish to travel," the captain said.

"NO MATTER what lane a motorist is in, if he sees traffic backing up behind him and has access to another lane to his right, he has an obligation and duty to use the further right lane and let those other cars go by him on the left," he said.

Referring to situations in which motorists already driving at the maximum limits of 65 or 70 appear to be blocking traffic, the Captain pointed out they are driving legally in respect to this law.

"BUT FOR safety's sake, these drivers should move to
